## Municipal Elections March 7 If Necessary; Annual Meeting On February 14

Municipal elections will be held on March 7th if necessary this year. Nomination day has been set at Feb. 21 with J. Park appointed Returning officer again this year. Councillors whose office expires this year are Wavrean and Dibblee, and it is not known if these men plan to stand for re-election. Retiring from School Board this time are Trustees Clark, Penney and Bayon. Deputy Mayor Bond presided

over council at their last meeting when routine business was dispensed with. Collins and Hames were reappointed as auditors for the year and the decision made to ask the Board of Assessment to conduct the assessment for 1955.

If cost is reasonable, the council will present the annual report in booklet form this year, carrying the reports of the various committees.

## Grands Win On Road Trip End Cranbrook Win Streak

Coleman Grands arrived home Sunday night with a record on their road trip into B.C. and with the honor of having knocked off the previously undefeated Cranbrook Selkirks. The club downed the Odie Lowe club 7-6 in a spirited overtime contest that was witnessed by 1400 fans in the Cranbrook arena. On Sunday afternoon the club doubled the score on Creston by racking up a 11-5 victory. Official records show Grands picking up nine penalties a gainst the apple country boys without the Del-Macs drawing one. One Coleman sentence was five minutes for fighting and it is hard to understand from this point who he fought with and why no one else drew a similar banishment. It usually takes two to make a fight. We don't want to erase Creston's lily white record, but from a position of one who did not see the game we would like to have the record straight, as would most Coleman fans. So far this Coleman has drawn their share of the penalties but hardly on a 9 to 0 ratio.

In the Cranbrook contest Coleman took the lead in the first with a 3-2 score. Cerney scored on a play with Gettman while the game was only 23 seconds old, Walsley scoring from Ludlow at 4:15 to tie it up. Lee bagged one off the stick of Bosetti at 6:46. Tarcon adding another to Coleman's margin at 9:40 the Bosetti, Tomlin and Scodellaro drew penalties for Coleman and Nelligan and Armstrong for Selkirks.

Tucker Tarcon scored the single counter in the second period on a play with Kryczka at 14:50. Gettman of Coleman and Armstrong of Cranbrook drew penalties.

In the third period Cranbrook dominated the scoring, Ludlow at 9:06 to make it 4-3 and Nelligan from Anderson and Casey at 19:25, tying the contest with only seconds left in the game. Penalties went to Gettman 2, and Tarcon of Coleman; Armstrong 2 and Nelligan of Cranbrook.

Casey put Cranbrook ahead at 2:02 of overtime, Coleman forging ahead again with goals by Belter at 5:07, Kryczka from Belter at 5:26 and Belter from Gettman and Scodellaro at 8:27. Nelligan scored on a play with Casey at 9:11 drawing within one goal of the Grands, but failed to put another past Kemp and thereby drop their first contest this year.

## Grands 11 Creston 5

Playing their third game in as many nights and travelling nearly 200 miles to do it, Coleman Grands skated to an 11-5 victory over the cellar dwelling Creston Del Macs. Coleman led 3-1 in the first 7-2 in the second, and skated off the ice with a 11-5 win, their fourth straight as the club begins to get a little practice behind them.

Scoring for Coleman Lee; Belter from Tarcon and Kryczka; Lee from Tomlin; McDonald; Tarcon from Coleman Cerney from Lee; Belter from Tarcon; Cerney from Tomlin; Tarcon from Belter and Kryczka; Belter from Kryczka; Gettman from Biegum. Penalties to Gettman 3, Scodellaro, Kryczka, Tymchyna, Tarcon Wilkie

Scoring for Creston; Stezer 2; Wilde from Stezer; Huth from Glowacz; Kramabetter. Penalties none.

## Big Contests Coming up

Shown on the back of Dominic Maio is the second largest cougar shot by Game Warden Jim Osman, on Jan. 3. The big cat weighs 172 lbs. and was very fat, as he had just killed a large cow elk.

The big tom would not tree as most good cougars do but crawled under a bank of the Elk River where a colony of beavers had been feeding. All Jim could see was the cat's tail sticking out one end of the tunnel and two and a half dogs' tails sticking out the other. He finally solved the problem by hanging over the bank from a tree and shooting the cat with a revolver.

## Cougar Killed at Dutch Creek

Edward Burton, better known to his many friends as Eddy has been appointed cougar hunter in Southern Alberta and reports bagging a large cougar on Dutch Creek on January 20th.

An interesting person to speak with, Mr. Burton has killed a total of 45 cougars during the past seven years, taking some alive and presenting them to the zoo in Calgary. Mr. Burton states that a cougar is estimated to make 50 kills per year on Deer, Elk and Moose.

Equipped with a number of fine hunting dogs, Mr. Burton

is performing a valuable service for the preservation of game in this province by riding the forests of the cats. There is a small bounty paid on each animal, but not enough to make it a paying business. Mr. Burton has an interesting selection of colored slides showing wild life, including some cougar attacking game.

It has been reported that cartoonist and movie producer Walt Disney wants a live cougar, however this may be just a rumor as no confirmation has been given.

## Tourist Recommendation To Be Classified

Classification of tourist accommodation will be standardized throughout Manitoba, Saskatchewan, Alberta and British Columbia if recommendations of an inter-provincial committee are adopted by the four provincial governments.

This was announced recently by Ralph R. Moore, deputy minister of the Alberta Department of Economic Affairs, following a three-day meeting of representatives from the four provinces in the Legislative Buildings at Edmonton.

It was unanimously agreed that each provincial government be asked to extend to tourist cabin and motel operators the same protection now provided hotel men and inn keepers against damage to property.

Unanimous agreement was reached on all requirements for tourist accommodation and the same symbols will be used throughout the four western provinces to designate the various classifications or grades of accommodation provided in rental units operated as motels, villas or resorts outside the national parks. The proposed classifications will be submitted to the national parks authorities with a request that they be applied in national parks areas as well.

A new system of arriving at the classification of accommodation, will be tested by inspectors in 1955. Another inter-provincial meeting will be called next autumn to compare results of the experimental tests and to eliminate difficulties which may be encountered. The proposed regulations will not become effective until January 1, 1957. Tourist camp and motel operators will be supplied with de-

## Annual Winter Carnival February 4, 5 and 6

The Annual Crows Nest Pass Winter Carnival sponsored by the Blairmore Board of Trade, will be held on February 4, 5 and 6, offering the best in winter fun and skiing thrills.

Desirous of presenting a snow pageant designed to thrill the family, the Blairmore group have come up with a program that is designed to please everyone.

The Queen contest is running again this year with the following candidates:

Miss Beverley Kemp - Blairmore Boy Scouts.

Miss Beatrice Gejdos - Coleman Elks.

Miss Marina Lynch-Staunton - Macroft Ski Club.

Miss Marlene La Grandeur - Pincher Creek Bank.

## Brilliant Blairmore Student Awarded IOOE Scholarship

BLAIRMORE—Frederick C. Harper, son of Mr. and Mrs. E. A. "Dick" Harper of Blairmore, was recently awarded a \$2,000 Imperial Order of the Daughters of the Empire scholarship for study overseas.

Mr. Harper, better known here as "Rick," was born in Blairmore and attended public school here, later going to Winnipeg with his parents where he completed public school. He then entered the Laura Second Junior High school in Winnipeg where he was selected as the first pupil of the term for which he had the highest marks. He then took senior high school at the Gordon Bell School after which he served with the Royal Canadian Artillery in the second world war for three years overseas. A Second World War memorial post-graduate scholarship, to enable students to carry on post-graduate work in history, philosophy, English or French literature, was given him.

### MEDAL WINNER

On his return from overseas he entered the University of Manitoba and was the University Gold Medalist on graduation. He also won the Decarte bronze medal in French and several other honorary medals.

At present Mr. Harper is a lecturer in French at United College, from which he graduated in 1951. He received his master's degree last fall, having majored in French 19th century theatre.

The scholarship may be awarded for a second year to the same candidate. The First World War Scholarship is available at any university in the United Kingdom, and the Second World War Scholarship at any university in the British Empire.

## Films On Canada

Albertans as well as other Canadians will be able to view a complete series of one-hour film programs on all the Canadian provinces and the north through a new plan sponsored by the Alberta Department of Economic Affairs, the Alberta Travel Bureau, and the National Film Board.

The series is a set of 11 one-hour film shows, each featuring a particular province. The series has been made up as a "Film Tour of Canada" so that viewers may see the whole of Canada during 11 weekly shows.

Contents of the Alberta program includes "Wardens of Waterton," and "Rocky Mountain Trout," two National Film Board productions on Alberta, and "Alberta Vacation" and "Gift of the Glaciers," both produced by the Film and Photographic Branch of the Alberta Government. Programs on other Canadian provinces will be made up similarly, consisting of N.F.B. films and provincial government films.

Initial Alberta distribution of the "Film Tour of Canada" series is being made from the Edmonton office of the National Film Board but eventually the series will be available to all film depots and libraries. N.F.B. offices in other Provinces will be distributing the series as well.

Purpose of the series is to present a pictorial view of Canada of educational value to the public.

## Grands Defeat Coal Kings 9-5

After 60 minutes of fast but less effective hockey than they have displayed, Coleman Grands racked up a 7-5 victory over Michel-Natal.

Although the game was fast and hard hitting, Coleman fans were aware of the fact that Grands were off color, passing blind, failing to back check and crowding back on their goal as the Coal Kings pressed to the attack. Michel-Natal tied it up at 10:40. Thewlis scoring from Mitchell. Belter made it 2-1 at 13:30 with assists to Kryczka and Bosetti. Kryczka putting Grands ahead 3-1 at 14:45 when he scored on a dippy doodle play that started at his own blueline. Wilkie of Coleman drew the only penalty at 18:55.

Starting the second period a man short and with sluggish performance, Grands watched the Coal Kings rap in two goals in 5 seconds and tie it up. McVeigh scored from Thewlis at 45 seconds. T. Pabro from De Paoli at 50. Tomlin put Coleman ahead at 7:25. McDonald setting his second at 14:10 on a play with Tymchyna. Jerry Scodellaro made it 6-3 at 18 minutes, Paul Flewisch getting the assist.

Penalties — Glasgow (M-N), Tarcon (C), Mitchell (M-N), Wilkie (C).

Michel-Natal opened scoring in the third stanza, T. Falero scoring on a play with Serafini and Joyce at 1:05. Thewlis put the visitors back in the running at 6:10 scoring on a play with Serafini while they played one man short. Belter scored from Tarcon and Kryczka at 13:15 and gave Coleman the margin of safety.

Penalties T. Pabro (M-N), Wilkie (C), Gettman (C), Glasgow (M-N), Watson (M-N).

## Names Of Twelve Alberta Pioneers Are Perpetuated

EDMONTON, Alta. — Names of 12 Alberta pioneers, including two publishers, have been given to a lake and 11 peaks in the Canadian Rockies.

Edith Gostick, secretary of the geographic board of Alberta, said the names of the pioneers, all dead, have been perpetuated in keeping with a policy established for Alberta's Jubilee year in 1955.

Ten of the mountains and the lake are located 20 miles northwest of Jasper, some 200 miles west of Edmonton.

One mountain in the Jasper area was named after Hon. Frank Oliver, statesman and journalist who in 1880 founded the former Edmonton Bulletin.

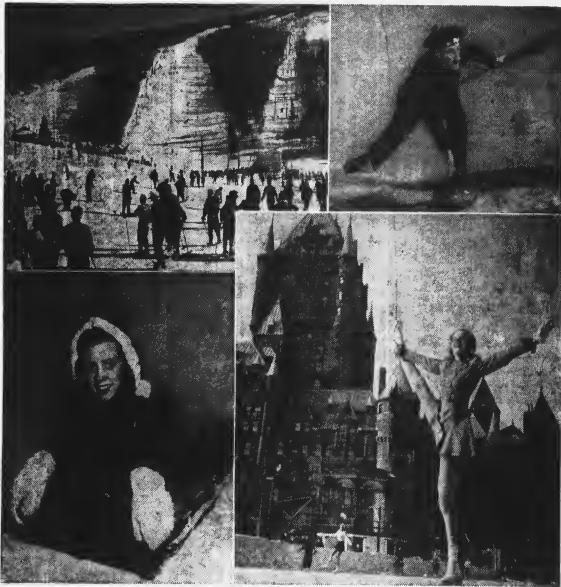

The other mountain in Waterton Lakes National Park in the southwestern part of Alberta, was named after the late Senator William A. Buchanan, publisher of the Lethbridge Herald, who died last July.

## Wolves Aid Deer?

A United States wildlife expert claims ridging the woods of wolves won't help increase the deer population.

"If all predators were destroyed the animals eating vegetation would thrive so well that in the end they would all starve," said Richard Pough, chairman of ecology and conservation at the American Museum of Natural History in New York.

Wolves help keep deer from multiplying to the point where they would all starve for lack of food, he said in an interview. Man should not interfere with the balance of nature.

WINTER CARNIVAL SCHEDULED: Quebec City is busy laying plans for a winter carnival which will produce scenes such as the above, featuring skating, skiing, tobogganing and similar winter sports. The carnival, which opens officially on January 6, or "Little Christmas", will run for six weeks, ending with a "Mardi Gras" celebration. Many of the color-laden winter sports events scheduled for the carnival will take place on the ski hills of Lac Beauport (upper left) and in the shadow of the famed Chateau Frontenac hotel (lower right).

### Nurse Likes The Arctic

WINNIPEG. — A former army nurse who served in Britain and Newfoundland during the Second World War says Baffin island in Canada's eastern Arctic is the most fascinating place of all.

Alice Mitchell is furthering her studies in Winnipeg after spending two years at St. Luke's Hospital, Pangnirtung, Baffin island.

Miss Mitchell said she even enjoyed the standard diet of seal liver, ptarmigan, Arctic char, can-

ned meats and dehydrated vegetables. The fare is bolstered by "quantities of vitamin pills."

### Find Uses For Cattails

Cattails, the graceful rush-like plants common to most Canadian swamps and sloughs, may soon become a favorite dish on menus. Two Syracuse (N.Y.) university scientists have been exploring the possibilities of utilizing this wild plant economically. They have already found that

cattail roots can be eaten like potatoes. They've made cattail flour from which they've baked cattail cookies. They've used the fibre from the stem for caulking barrels to make them watertight. Other industrial uses for the plant are being investigated.

### A Prayer Of Age

I've just had another birthday, Lord, so I may need a little extra help from now on. It's not that I mind the stiff joints. It's only that I don't want the years to let me

grow crabbed and narrow-minded. I want to hold on to my sense of humor and to keep the corners of my mouth turned up. I want to be able to see young folks from a broad viewpoint and to rejoice with them in their modern freedom and ambitions and in their fineness I want to keep step with the world of today and to accept new ideas and new standards without unjust criticism or comparison. If I can't keep in the harness and help pull, at least I don't want to hang back and drag. I want to look ahead with hope for and faith in the future of this old planet. I want folks to visit me because they enjoy it and not because they consider it a duty. I want to be able to give of myself for the happiness of others instead of merely accepting. I want to keep my spirit young as the years pile up.

So maybe I'll need a little extra help from now on, Lord. Please help me to be a serene old person. And thanks a lot. Amen.

—E. M. RICE.  
In the Revelstoke Review.

### TIPS ON TOURING

An accumulation of milk bottles and newspapers on a door step is a certain sign that the family is away, and unmistakable "open house" invitation to burglars and petty thieves.

Also those drawn window shades, the note on the door to the ice man, the stuffed mail box — all dead give-aways.

Before you go on a motor trip of more than two or three days, there are certain precautions you should take to protect your property. First, be certain to give your next door neighbour a key so he can give the house an occasional check or investigate anything suspicious.

You'll avoid the give-away stuffed mail box and the possibility of lost mail if you notify the post office with a request to hold mail until your return. Your newspaper boy will save your papers for you, or, if you're to be gone an appreciable time, the circulation department will forward them to you.

It's a good idea to switch off the master electric switch, double-lock all windows, if possible, notify the gas and electric companies and all other "services" you use. In cold weather, of course, you should make arrangements with a neighbour or relative to keep the furnace or oil burner operating to prevent frozen pipes.

And, to insure maximum comfort on your return, arrange beforehand to have everything resumed on the day you come back.

We can all do without rush hours — especially we motorists.

There is at least one occasion when the motorist can avoid the car-crash completely when he wants to have his car serviced.

Service stations like any other business have uncrowded hours on week days when they can give your car immediate attention. In addition, almost all stations provide a free "pick-up" service to and from your home or business parking area.

Many motorists, when they want a lubrication job, oil drain or minor repair performed, leave their cars at stations on the way to work. Suburbanites usually choose Saturdays for the job when the service station is invariably jammed up. Or they'll come on a Sunday when the station is short-handed. Consequently, they waste much time just waiting to get noticed.

Why not just pick up the phone next time and let service come to you!

There is a basic rule for driving in foggy weather which should be posted on the windshield of every car: "See — and be seen". How to see better in fog:

Experiment — by flicking the headlight beam up and down several times, but in most cases the lower beam will be best. High beam lights bounce too many rays off the fog and back into your eyes. If you have a spotlight, focus it on the right-hand side of the road, and down.

Turn off all inside lights, including the dash light. (The darker it is inside, the better you'll see outside.) Keep the windshield clean and side windows open. If you have a passenger, he should watch the right-hand side while you keep a sharp eye on the centre white line — but stay well to its right.

How to be seen in fog: Make certain your stop-signal and tail light are working and free of dirt. Blow your horn freely, especially when climbing or coming down hills or slight rises. If another car is approaching or coming up behind, flick the head-beams and blow the horn until you

are certain he knows you are there. If you are in trouble, pull to the side of the road as quickly, and as far, as possible. Leave lights on.

"See — and be seen", to cut foggy weather trouble to a minimum.

### British Weather Ships Man New Ocean Stations

On Christmas Day a British ocean weather ship arrived at a point on the 62nd parallel between Iceland and Greenland to begin a spell of weather observing from an Atlantic weather station — "Alfa" — not hitherto manned by British ships.

The British ocean weather ship "Explorer" took over from the Norwegian ocean weather ship "Polarfront II" for a 24-day patrol as a new schedule of rotational duties for the five North Atlantic weather stations manned by European vessels comes into force. At two more of these stations — "India", south of Iceland and "Juliette", west of Ireland — which have previously been Great Britain's main responsibility, the British ocean weather ships "Recorder" and "Watcher", respectively, will also be on duty over the Christmas period.

A prayer, in its simplest definition, is merely a wish turned heavenward.—Phillips Brooks.

## THE COLEMAN JOURNAL

Published Wednesday at Coleman, Alberta

Authorized as 2nd-Class Mail by the Post Office Department at Ottawa

T. Holstead, Publisher

Subscription Rates \$3.00 per year, Foreign \$4.00 per year. Single 7c

Three years ago, we dropped into the Coleman Journal with no intention of ever settling here and assuming the duties of editor.

After five minutes or more talking with Tom Holstead we were knee deep in plans for the Journal and on the verge of a friendship that we will always remember.

Someone once said that in the life of a young man, the most essential thing for happiness is the gift of friendship. This essential item has been given me by Tom, and I will always remember the years spent in his employ.

It is generally agreed that no two men have the same idea on how a thing should be done, and it would be foolish to say that we always agreed on matters. However, any differences of opinion that we have ever had, were discussed and decided upon without a hard word spoken. The credit for this is Tom's. I have never been known for backing away from any good argument (heated or otherwise). After three years with Tom, I have yet to see him display any sign of temperament. Had we ever locked horns giving notice would have been an easier task.

## THANK YOU

Before leaving Coleman I wish to express my thanks to everyone who has helped me during my three years residence.

I feel elated to have received a letter of thanks from Ray Spillers on behalf of the Coleman hockey teams and wish to state here that by covering the various games I was only performing my duties and enjoying myself at the same time. It is my humble opinion that any thanks that is extended by the hockey club be extended to such men as Ray himself and Jimmie Evans.

To Trevor Collier and Nora Goulding I say thanks for the help you have given me in respect to Council and Schoolboard. Thanks also to Lor Richards for information on the Sports Association; to Rollie Hill of the Board of Trade, to Norman Ash of the U.M.W.A. and Jim Wilkie of the Coleman Radio.

To the people of Coleman I extend thanks for their hospitality. I must admit that like all other outsiders I moved to a mining town with tongue in cheek waiting for all the things I had heard come true. After three years I have come to know the people of a mining town and will always rate them as some of the finest people I have ever met. I consider it a privilege to have lived among you and be your neighbor.

My wife Helen will remain in Coleman for a while and I will return to the mountains for my week-ends, and as the years pass, it is our intention to call back and visit with Coleman people.

JERRY YOUNG.

## THE ANNUAL MEETING

Elsewhere in this issue is notice of the Annual Meeting of Council and School Board and the date of nomination day.

In the past Coleman people have stayed away from the annual meeting in droves then congregated on the street corners and complained about the decisions and actions of the past year.

Just after the annual meeting of last year Coleman found itself faced with the closure of a mine and the government proposal to form a large school division.

No one knows just what is in store for the next twelve months, although Blairmore has been heard in efforts to have the large division put in. The annual meeting is the proper place to express your opinions and nomination day is the time to see that good men are selected to represent Coleman in matters of vital interest to the town.

Mark these dates on your calendar and start taking more of an interest in the things you are paying for.

## Our READERS Say

Coleman, Jan. 20, 1965  
Mr. T. H. Holstead,  
Publisher,  
Coleman Journal,  
Coleman, Alberta.  
Dear Mr. Holstead,

At this time may I take this opportunity to thank you for your policy of providing publicity in regard to sports in Coleman.

During the past few years the coverage received by our hockey clubs has not only increased our gate receipts but this has encouraged our various clubs to continue operating.

We are particularly grateful to Jerry Young, who has devoted numerous hours of his time, for the splendid reports relating to all our hockey matches. As a reporter Jerry has expressed his opinions rather open-mindedly, and personally I feel indebted for his comments.

In behalf of all our hockey organizations, may I express our

appreciation for all the services Jerry has rendered during his brief stay here.

It is with regret that we realize that Mr. Young will no longer be with us, but we wish him continued success and a more prosperous future in his new venture.

Yours sincerely,  
RAY SPILLERS.

Ottawa, Ont.  
18 January 1965

The Editor,  
Dear Sir,

May I, through you, extend to the people of Canada the very warm thanks of myself and other members of the Post Office staffs from coast to coast for the exceptional co-operation extended in the mailing of their Christmas cards and gifts.

Reports now being received from postmasters in all parts of the country indicate clearly that more than ever before, the public showed its anxiety to assist the service by mailing early, with the result that the Postal staffs were able to effect most Christmas deliveries in good time

for the holiday.

The reports also indicate that the proportion of correctly addressed and well-packaged mail was higher than ever before, although, as in the past, delays and difficulties were experienced as a result of failure on the part of some mailers to observe good mailing practices.

Much of the credit for the success achieved in our handling of the Christmas mails must, of course, go to the newspapers, who in many cases took great pains to remind the public of the advantages to be gained in observing the various mailing dates and in correctly addressing and packing their mail. Needless to say, this assistance has been much appreciated.

Yours sincerely,  
W. J. TURNBULL,  
Deputy Postmaster General.

## How To Treat Inactive And Sluggish Septic Tanks

The problem of sewage disposal is becoming an increasingly important one. As our cities grow in population, we place a larger volume of liquids and solids into our sewage system, often overtaxing the transmission and processing of the system.

The widespread installation of septic tanks in our expanding suburban communities is bringing additional problems of overloading these private systems. They become inactive, must be cleaned or pumped out. They create ground and stream pollution and cause odors, unpleasant to owner, neighbors, and the community in general.

The danger to health is always present wherever there is a sewage-disposal problem. Typhoid and other epidemic-type diseases can and often follow.

A product has recently been introduced to accelerate the normal digestion speed of sewage, both in septic tank and cesspool-type systems as well as in community-size disposal or treatment plants. It permits greater load intake.

Called ENZYMATIC, this product is not a chemical but a biological formula. It supplies over 70 different fat, protein and starch-splitting enzymes plus de-siccated bacteria cultures of enzyme-producing bacteria which immediately set up the natural bacteria action necessary to complete the normal digestion cycle in the treatment of sewage.

When introduced into a septic tank or disposal plant (poured into toilet and flushed or introduced directly into the influent), this powdered product liquefies the fats, protein and starches. Bacteria digestion immediately follows, creating harmless gases, clear liquid and inorganic mineral sedimentation.

Enzymatic permits uninterrupted septic tank or disposal system operation. When used in septic tanks regularly, the tanks need not be cleaned of inorganic mineral sedimentation for 10 to 15 years, depending upon the amount of solids present in the tank when treatment starts. Treatment requires 1/4 can per week for 4 weeks followed by 1/4 can each month thereafter. Treatment is doubled for homes equipped with garbage grinders.

Cesspools and outdoor type toilets are treated in the same manner except a 4 oz. can is used every six months. Another feature of this product is its ability to eliminate odors. ENZYMATIC is also recommended to open up stubborn sink drains which are clogged with grease or grease-laden particles.

Enzymatic is being successfully used by hundreds of cities in large municipal sewage treatment plants. Low in cost, Enzymatic is only \$2.00 per can.

This product is distributed by Northwestern Importers and Distributors Ltd., Dept. 113, North Vancouver, B.C.

## Grands 9 Fernie 5

Wearing the opposition down for two periods, Coleman Grands exploded for the final twenty minutes and clobbered the visiting Fernie Rangers 9-5. As we predicted a week ago, the Coleman Club has found its feet and were never in trouble throughout the entire game. Most effective man for the Fernie club was Willie Bossio. Although overshadowed by some of his team mates for skating style, Bossio outworks them and proved a stumbling block to many of Coleman's rushes.

Cerney blinked the red light for Coleman at 1:50 of the opening period while giving a display of stickhandling, followed by a second counter by Tomlins from Cerney and Biegun at 6:30. As has

been the case all season, Coleman goal is followed by a Coleman penalty, and Jerry Scodelaro drew the sentence at 7:35. Despite the man advantage, Fernie found the Coleman club constantly knocking at the door until the 13:20 mark when Ashmore broke from his own end, skated through the Coleman defence, drew the goalie out and slipped the disc into the corner to make it 3-1. Bossio drew an elbowing penalty for Coleman at 16:30, Bossio scoring on a play with Ashmore at 18:25 to tie the game up. Coleman, pulled ahead again at 19:30 when Belter slipped behind the defence, drew the goalie out and passed to Kryczka who flipped it in.

Fernie tied the game again at 2:50 of the second with Ashmore scoring on a nice team play with Caravetta, going ahead on a solo effort by Hockey at 6 minutes. DeGeorge drew the first Fernie penalty at 9:50 as the pace quickened. Coleman tied the game at 4:40 when he sacrificed to stop

on assist from Tomlins and Biegun, Belter making it 5-4 for Coleman at 16:05 on a play with Tarcon that was reminiscent of their juvenile razzle dazzle play that left netminders jibbering.

The third period was all Coleman as for action and results. Mitchell drew a Fernie penalty at 4:40 when he sacrificed to stop McDonald on a sure goal. Belter and Tarcon duplicated their former attack, Belter blinking the light at 8:05.

Willie Bossio tried to keep the Rangers in contention by scoring at 10 minutes with Zuffa getting the assist. Mitchell drew another penalty at 10:45 when he sacrificed again to stop Cerney on a certain goal. Biegun scoring for Coleman at 11 when he took Cerney's pass and drove it through a maze of legs as Fernie attacking line were bolstering the defence.

From this point the Grands became obsessed with the desire to fill the opponents net, the next coming on a play with Kryczka

and Belter, Ted scoring the goal at 12:25. Caravetta drew a sentence for the Fernie Club at 12:30 and Tomlins scored another for Coleman at 12:50, Biegun getting the assist. Coleman turned on speed as they continued to pepper the Fernie goal, but were only able to register two penalties to Tarcon and Biegun, the game ending at 9-5 for Coleman.

## RED INK SPOTS

Red ink stains can be removed from white materials by using ammonia and water.

Old Tom had had a good week and thought he'd buy his wife a present, so he picked up the table and carried it out of the house, put it on top of his head and trotted down the road.

Bill Smith met him. "Allo, Tom, are you moving?"

"No," said Tom, "I'm going to buy the wife a tablecloth."

## Sport

The Crows Nest Pass Bonspiel will get underway at Bellevue on January 22nd-23. Representing Pass towns at a recent meeting regarding the 'spiel were Bill Fraser and J. Maynard of Coleman; K. Thornton D. Bartlett and D. Oliver, of Blairmore; Sonny Richards, S. Wells and J. Paul of Bellevue.

Grands are improving every time out and it is fitting that this young man and hustling club should be the first team to knock off the undefeated Cranbrook S.I.K.R.s.

Cranbrook clobbered Kimberley, 11-9 despite the fact that Kimberley played ex Dynamiters Sully Sullivan, Buck Kavanagh, Doc Livingstone and Red Sutherland.

land. Following this contest Selkirk's dropped Creston 6-2.

Fernie Rangers pleased 1,000 loyal fans when they defeated Lethbridge Allstars 6-4.

Creston Del-Macs continue to be the weak sister in the A.B.C. League by dropping a game to Michel-Natal Coal Kings by a 7-6 score. The Creston club are playing their first year in the league after a one year absence. Their first year in the league, the apple country pucksters failed to win many games and decided to sit one out. It is to be hoped that their showing so far this year will not result in another fade-out. It takes time to build a hockey club.

### Housekeeping For A Ship Quite A Job

Canadian housewives who are wont to contemplate the annual problem of Christmas catering and entertaining with some trepidation may get a measure of consolation from comparison of their lot with the responsibilities that face those charged with house-keeping chores aboard large Atlantic liners every day of the year.

For instance, to equip the 22,000 ton Cunarder Saxonia for a five day crossing requires more than 38,000 pieces of linen, including 6400 sheets, 8500 table napkins and 2800 blankets.

When it comes to the Queen Elizabeth and Queen Mary, the housekeeping increases somewhat. Each day, each of these giant Cunarders requires more than 500,000 pieces of china, glassware, and cutlery to serve the average daily 10,000 meals. Linen supplies for a voyage in each Queen include 210,000 towels, 31,000 pillow cases and 21,000 table cloths.

#### CRANBERRY APPLES

A good dish to serve with a roast pork dinner is baked cranberry apples. Fill the cavity left in the apple after core has been removed with cranberry sauce, and bake.

The volunteer worker of the Canadian Red Cross Corps buys her own uniform.

### Chrysler Corp. Appointments Are Announced

WINDSOR, Ont. — Promotion to positions of greater responsibility of two well-known figures in British Columbia automotive circles is announced here today by Howard J. Rosebrugh, general sales manager, Dodge-DeSoto division, Chrysler Corporation of Canada, Limited.

G. Carl Main, formerly Dodge-DeSoto assistant regional manager, becomes regional manager.

Joseph M. Lee, for the past 10 years regional sales manager becomes sales staff executive.

The appointments are effective immediately and both men will continue to make their headquarters in Vancouver.

In announcing the appointments Mr. Rosebrugh stated that they are indicative of the expansion of activity throughout the entire Dodge-DeSoto organization. Both men, he said, bring to the important new posts which they are assuming, a very extensive background of experience in the automobile business.

Prior to joining the corporation in 1947, Mr. Main had broad ex-

perience with several major automobile and truck dealers. He served as a district manager in the Regina region for three years before moving, in 1952, to Vancouver as assistant regional sales manager for the Dodge-DeSoto division.

Mr. Lee's association with the Dodge-DeSoto division goes back nearly a quarter-century.

### Entry Blanks Mailed For Seattle Exhibition

Entry blanks for the third annual Northwest Craftsmen's Exhibition, scheduled to open March 6 at the Henry Art Gallery of the University of Washington, Seattle, have been mailed to 1,000 craftsmen of the Northwest States, British Columbia and Alaska. Entries in the exhibition are due at the Henry Gallery February 12. Craftsmen who have not received entry blanks should write to the Henry Gallery immediately.

The exhibition is open to craftsmen residing and working in Oregon, Washington, Montana, Idaho, British Columbia and Alaska.

The exhibition will include original work in weaving, ceramics, jewelry, metalwork, enamels, containers of wood and tableware, lamps, ceramic sculpture, and decorated fabrics. There will be separate juries for each craft medium. The juries will choose the entries to be exhibited and will award prizes.

The exhibition is co-sponsored by the University of Washington Henry Gallery and Lambda Rho Alumnae, Women's Art Honorary, the Olaf Club, and the Seattle Weavers' Guild.

The sponsors are endeavoring to bring the best in fine contemporary craftsmanship to the attention of the public and to give the craftsmen of the region a chance to see his work in relationship to the work of the other craftsmen of the region.

### "A Star Is Born" Rates High As Movie

"A Star Is Born" stood out as the best motion picture of 1954, Clyde Gilmour, Canada's best known movie reviewer, reports in his regular column in the current issue of Maclean's Magazine. In the first 1955 issue of the magazine Gilmour lists his choices of the 10 best and 10 worst films of the past year.

In his survey of the year's activity Gilmour found the film industry produced fewer and better pictures than in previous years. He says that none of the feature films he saw in 1954 was as good as the best of 1953 and 1952, but that the average was higher than before.

The best performance of 1954, the Maclean's article reports, was given by Judy Garland as the young actress rising to the heights in A Star Is Born. As best actor Gilmour chooses Humphrey Bogart for his portrayal of Captain Queeg in The Caine Mutiny.

Other films in Gilmour's best 10 are The Kidnappers, Seven Brides for Seven Brothers, I Should Happen to You, Knock on Wood, Executive Suite, On the Waterfront, Romeo and Juliet, The Joe Louis Story and Riot in Cell Block 11.

Heading the 10 worst movies against which Gilmour warns Maclean's readers is 1, the Jury, "a bit of trash from a trashy novel about a tough private eye and his many amours." Worst performance by an actress, Gilmour says, was that by Lana Turner in Flame and the Flesh. Tony Curtis in Forbidden gave the worst performance by an actor.

Best British film of 1954 was The Kidnappers; best Canadian movie was The Stratford Adventure, a National Film Board documentary on the Shakespeare festival; and best foreign film The Golden Coach, starring Italy's Anna Magnani.

### Carbon Monoxide Poisoning Taking Winter Toll

REGINA. — Carbon monoxide poisoning is once again taking its toll throughout Canada. J. A. Christie, chairman of the highway traffic board said, in a warning to motorists.

In Saskatchewan, the most common situations in which carbon monoxide fumes affect humans is when a car's exhaust system is faulty; when a motor vehicle is operated indoors, or when a lack of ventilation is evident.

Mr. Christie said the highway traffic board has a case on file where a boy was killed while sitting with his car in the open air, with the window open and the motor running. The heater was on

and apparently drew sufficient carbon monoxide to cause death.

He pointed out that the exhaust from the average car contains seven percent of carbon monoxide. Only one percent of the poisonous gas in the air a person is breathing is sufficient to cause death. Because the gas is colorless, odorless and tasteless, the danger of the gas is doubled.

In view of these facts, said Mr. Christie, motorists should not have to be urged to make absolutely sure that the exhaust system in their car is in perfect condition, and that at least one window in the car be left partially open when driving during the winter months.

### Gems Of Thought

#### PRAYER

Desire is prayer, and no loss can occur from trusting God with our desires, that they may be moulded and healed before they take form in words and in deeds.

The Lord's Prayer contains the sum total of religion and morals — Wellington.

Our prayers should be for blessings in general, for God knows best what is good for us.

### Know This

After the darkness and storm Cometh a radiant light;  
After the winds and the rain Cometh the sunshine and bright;  
After the gloaming and night Cometh the glorious dawn;  
After the toiling and cares Cometh the victor's song.

● RCMP IN TRAINING — Small arms training on a pistol range is but one of the many instruction courses taken by Royal Canadian Mounted Police recruits; they are also given rigorous training in laboratory work, photography, fingerprint identification, and scores of other specialized studies. Their story is told in the CBC Trans-Canada network series "The Quiet Force" which has been applauded for its technical accuracy. The weekly series reveals the story of the RCMP of today, whose main weapons in checking crime and apprehending criminals are science, perseverance and intelligence.

THE VICKERS VISCOUNT, TCA's new turbo-prop airliner is seen over Montreal as it nears the end of its delivery flight from England. This medium range aircraft, the first of 22 ordered by Trans-Canada Air Lines, will introduce a new era in North American aviation, and will be put into service early next year both in Canada and the United States.

President G. R. McGregor accepts the first of 22 Vickers Viscounts on behalf of Trans-Canada Air Lines. Mr. McGregor is seen looking over flight papers with Captain G. R. (Jack) Bryce, the man who flew North America's first propeller-turbine airliner from England to Montreal. Reading from left to right are Mayor Jean Drapeau of Montreal, Mr. McGregor, Captain Bryce, G. R. Edwards, Managing Director of Vickers-Armstrongs Ltd. and the designer of the Viscount, and H. J. Symington, a Director of TCA. (TCA Photo)

#### LOADS OF MAIL

Everyone connected with radio's newest quiz program "Hide and Seek" is enthused over the response. Announcer John Rae (left) gives a hand with the mail to producer Reid Forsee and moderator Bernard Cowan — who has to pick the best locations submitted by listeners. The weekly Trans-Canada network show consists of a panel of well-known personalities who must find, by asking questions and receiving only "yes" or "no" answers, where on earth the listener would like to be. Some typical examples: "one of the Rockettes in Radio City" and "standing on Telegraph Hill in St. John's, Nfld." When these were asked the panel guessed the first, but missed the second.

### Husbands! Wives! Weak, Run-down, Old?

Thousands of couples are weak, tired, lack energy and pep, they feel run-down, old because bodies lack iron at 40, 50, 60, 70. Order Tonic Tablets today. Supplies invigorator you, too, may need to revitalize, stimulate, energize and build-up entire body. Feel years younger. "Get-acquainted" size only 60¢. At all druggists.

can secure from your credit union treasurer, by which you undertake to save \$100 per year for the next ten years.

Your credit union will lend you \$1,000 which will be placed to your share credit. Through your credit union's affiliation with the league and CUNA, your share is insured.

If you die your dependents will receive \$2,000 and it will have cost you nothing. Sounds too good to be true. But here is how it works. Your Credit Union uses the \$100

per year that you are repaying on your loan in its regular business and the interest received pays the cost of insuring your loan and etc.

You do not pay interest on your \$1,000 neither do you receive any dividends and you cannot withdraw any of the money.

If you wish to quit before the 10 year period, the cost of insurance etc. will be deducted from the amount you have paid in and the balance will be refunded to you if you wish. What could be fairer.

Let's add up what your Credit Union has to offer: —

Savings (1); No risk (2); Higher earnings (3); Better credit privileges (4); Good investment (5); Assistance to fellow members.

Loans (1); Low interest rates; (2) Confidential service (3); Insurance against death and disability.

Cuna Mutual Ins. Society offers regular insurance to Credit Union members at a low rate.

### Fractured Jaw Presents Special Surgical Problem

A slippery, wet pavement; blinding lights in the rain; sudden braking and a crash of cars in collision. A head slammed into the back of the front seat, and a broken jaw.

Sirens of police cars and ambulance; a rush trip to the hospital; a quick examination by the physician and a hurried setting of the jaw — with the broken parts brought together and firmly held by an appliance until the bone joins again.

Now the patient visit his dentist — "Doctor, ever since my jaw was broken and they took the splints off, I can't seem to get my teeth together properly — they don't mesh right so I can chew my food, and when I try to close the jaws it hurts."

X-rays were taken, and a thorough examination followed — then...

"Your jaw was set under emergency conditions, and perhaps it was not possible to call in your dentist or an oral surgeon, to see that the parts were joined together so that the teeth would meet exactly as they did before," said the

dentist. "Sometimes, when there is very little change in position, it is possible to correct the faults without much difficulty, but I'm afraid this is more serious. If you are to keep those teeth, the jaw bone will have to be separated again at the site of the break, and reset in the correct position."

"You mean my jaw will have to be broken again, and I'll have to go through all that grief once more? Don't tell me that!"

"It's either that or the loss of quite a few perfectly good teeth, and you must take the choice." And that's a tough decision to have to make.

A few years ago, there might as well have been a stone wall between the work of physicians and dentists, for there was little co-operation for the good of their common patient. But in these enlightened times, most physicians and surgeons know that there's something more to setting a jaw than just bringing the broken parts together. Unfortunately, there are still some who give little or no attention to the relationship

of the teeth. For teeth mesh together just as the teeth of cog wheels mesh, and when the parts of broken jaws are fixed together without giving full attention to the meshing of teeth, trouble follows, just as it does when cog wheels do not run smoothly together.

How to avoid such trouble? The patient who suffers a serious injury to the jaw should see that his dentist or an oral surgeon is present when the condition is being treated.

But do dentists commonly treat jaw fracture? Not as a rule, but they can recognize conditions that may lead to serious trouble in the future. And if the operation should be outside their usual field of experience, they will call for the services of the oral surgeon, who specializes in surgery of the mouth and jaws.

When treating a serious accident involving injury to the teeth or jaws, the competent physician or surgeon will welcome the presence of the dentist or oral surgeon.

The Great Slave Lake has an area of 7100 square miles.

## IN THE NEWS

On January 21st Mr. Jack McDonald received a phone call from Boston, Mass., informing his sister Mrs. Annie Ingraham, aged 72. She was predeceased by her husband just two months ago. Left to mourn are brothers, Jack of Coleman; Colin of Los Angeles and Archie of Antigonish N.S. Four years ago when the McDonalds were east they spent a week with the Ingrahams.

The members of the Maycroft Ski Club and friends enjoyed an afternoon of skiing in the Kananaskis area Sunday afternoon. Enthusiastic skiers including some of the weaker sex were seen towed behind cars, trucks and jeeps. Lunch was served at the home of Mr. and Mrs. W. McGee at The Gap.

Mr. and Mrs. W. Walton and young son are leaving Saturday for a three week holiday at Le Pas, Manitoba, the guest of Mrs. Walton's mother.

The Canadian Legion are again conducting the canvass for Polio Funds. The financial statement of last years receipt and expenditures will be made in the Journal next week. Support this campaign - polio may strike you any day.

Mrs. Joe Plante is a patient in Lethbridge Hospital.

Word was received by T. Hols ead of the sudden passing of his aunt Mrs. J. T. Kirkham in Calgary.

Mr. Harry Drew of Port St.

James, B.C. is the guest of his son and daughter-in-law Mr. and Mrs. J. Drew.

Mr. and Mrs. B. McEwen have been appointed caretakers at the firehall.

Last week-end a rink of lady curlers composed of Jean Fields, Delma Fow, Eunice Fraser and Mary Ann Morell attended the bonspiel at Pincher Creek. Although they did not bring back any honors, they won two games, lost two and report having an enjoyable time.

Mrs. J. Bayon entertained a number of ladies at afternoon tea last Wednesday.

Mr. and Mrs. R. Scheurman and family are now residing in Blairmore, having resided in Coleman for a number of years. Mrs. Scheurman was active in church work, a member of the Goodwill W.A. and the Couple Club of the United Church.

Mr. and Mrs. W. Mozell were recent Lethbridge visitors.

Mrs. A. Beveridge is visiting her daughter and son-in-law Mr. and Mrs. J. Robinson.

Bruno Kuchty, stationed with the R.C.A.P. at Cold Lake, Alta. is visiting with his parents.

Mrs. Richard Gardener of Claresholm is the guest of her parents Mr. and Mrs. Leonard Hotte.

## Leismeister-Jackson

The Holy Ghost Catholic Church in Coleman was the scene of a lovely wedding. Saturday, January 15, when Beverley Jackson only daughter of Mr. and Mrs. Frank Jackson of Coleman was united in marriage to Alvin Leismeister second oldest son of Mr. and Mrs. Jack Leismeister of Formost. Father McGreevy officiated. The altar was decorated with pink carnations.

Given in marriage by her father the bride wore a floor length gown of white net over satin, with inset lace and styled lily point sleeves of lace design on a dainty lace collar. Her finger tip veil of illusion net was held in place with a pearl tiara and she carried a bouquet of red roses. Her only jewelry was a double strand of pearls a gift of the grooms.

Maid-of-honor was Miss Rose Bubniak in a semi-formal of powder blue net over taffeta with matching cape and headress. She carried a colonial bouquet of pink and white carnations centered with a red rose.

The bridesmaids, Miss Elaine Gurny of Calgary formerly of Coleman, and Miss Mary Leskosky wore aqua and pink semi formal of net over taffeta with matching bolero's and headress. They carried colonial bouquets of pink and white carnations centered with a red rose.

Harold Leismeister of Formost, brother of the groom was best man.

Ushers were Arnie Ulesley of Formost and Ed Jackson, brother of the bride.

For the wedding the bride's mother wore a navy blue dress with pink accessories and a corsage of pink and white carnations. The groom's mother chose navy-blue, with white trim and white accessories, and a corsage of white and pink carnations.

The reception was held at the home of the bride's parents, where the table was centred with a three-tiered cake embedded in white lace and topped with a bride and groom.

Harold Leismeister proposed a

toast to the bride, and the groom responded. Father McGreevy then wished the couple much happiness.

Out-of-town guests were from Formost, Calgary, Hillcrest, Natal and Pincher Creek.

## CARD OF THANKS

I wish to thank all those who attended our shower or in any way helped to make it such a success. Special thanks to the hostesses.

Mrs. A. Liesmeister  
Nee Beverley Jackson
